# Bio

Black Salt Tone joined forces in February of 2011 and have been pounding away at the reggae rock scene ever since. The founding members Joshua, Kobo and Tree have a reputation for innovating musically and blowing up the stage with high energy performances. They lovingly craft honest lyrics, brutal beats, thumping bass lines, scorching keys, passionate vocals and moving guitar solos. Having released three albums; Into the Unknown, Rise, and Diversity Voltron, they are hard at work on their 4th album, due in 2022.

BST has toured the west coast extensively and continue to do so. They were featured in Irie Magazine, Tapout Magazine and have been interviewed on many radio shows and podcasts. Keep your eyes and ears open as they continue making sonic waves spreading an honest message of hope, survival, love and progress on their musical journey.

Super, Mega, One Love.
